◆	Trident	4 lbs	1				
<i>Melee Weapon · Gear · Thrown (Range 20/60) · Versatile (1d10) · Proficient · Melee · Trident · Martial</i>							
Range. A Range weapon has a range in parentheses after the Ammunition or Thrown property. The range lists two numbers. The first is the weapon's normal range in feet, and the second is the weapon's long range. When attacking a target beyond normal range, you have Disadvantage on the attack roll. You can't attack a target beyond the long range.							
Thrown. If a weapon has the Thrown property, you can throw the weapon to make a ranged attack, and you can draw that weapon as part of the attack. If the weapon is a Melee weapon, use the same ability modifier for the attack and damage rolls that you use for a melee attack with that weapon.							
Versatile. A Versatile weapon can be used with one or two hands. A damage value in parentheses appears with the property. The weapon deals that damage when used with two hands to make a melee attack.

<i>Melee Weapon · Gear · Finesse · Light · Thrown (Range 20/60) · Proficient · Melee · Dagger · Simple</i>							
Finesse. When making an attack with a Finesse weapon, use your choice of your Strength or Dexterity modifier for the attack and damage rolls. You must use the same modifier for both rolls.							
Light. When you take the Attack action on your turn and attack with a Light weapon, you can make one extra attack as a Bonus Action later on the same turn. That extra attack must be made with a different Light weapon, and you don't add your ability modifier to the extra attack's damage unless that modifier is negative. For example, you can attack with a Shortsword in one hand and a Dagger in the other using the Attack action and a Bonus Action, but you don't add your Strength or Dexterity modifier to the damage roll of the Bonus Action unless that modifier is negative.							
Thrown. If a weapon has the Thrown property, you can throw the weapon to make a ranged attack, and you can draw that weapon as part of the attack. If the weapon is a Melee weapon, use the same ability modifier for the attack and damage rolls that you use for a melee attack with that weapon.

BACKSTORY, PERSONALITY & FEATURES

BACKSTORY & PERSONALITY

SOLDIER

You began training for war as soon as you reached adulthood and carry precious few memories of life before you took up arms. Battle is in your blood. Sometimes you catch yourself reflexively performing the basic fighting exercises you learned first. Eventually, you put that training to use on the battlefield, protecting the realm by waging war.

CLASS FEATURES

Fighting Style (Fighter)

You have honed your martial prowess and gain a Fighting Style feat of your choice. Defense is recommended.

Whenever you gain a Fighter level, you can replace the feat you chose with a different Fighting Style feat.

Second Wind (Fighter)

You have a limited well of physical and mental stamina that you can draw on. As a Bonus Action, you can use it to regain Hit Points equal to 1d10 plus your Fighter level.

You can use this feature twice. You regain one expended use when you finish a Short Rest, and you regain all expended uses when you finish a Long Rest.

When you reach certain Fighter levels, you gain more uses of this feature, as shown in the Second Wind column of the Fighter Features table.

Second Wind ◆◆

Weapon Mastery (Fighter)

Your training with weapons allows you to use the mastery properties of three kinds of Simple or Martial weapons of your choice. Whenever you finish a Long Rest, you can practice weapon drills and change one of those weapon choices.

When you reach certain Fighter levels, you gain the ability to use the mastery properties of more kinds of weapons, as shown in the Weapon Mastery column of the Fighter Features table.

Action Surge (Fighter)

You can push yourself beyond your normal limits for a moment. On your turn, you can take one additional action, except the Magic action.

Once you use this feature, you can't do so again until you finish a Short or Long Rest. Starting at level 17, you can use it twice before a rest but only once on a turn.

Action Surge ◆

Tactical Mind (Fighter)

You have a mind for tactics on and off the battlefield. When you fail an ability check, you can expend a use of your Second Wind to push yourself toward success. Rather than regaining Hit Points, you roll 1d10 and add the number rolled to the ability check, potentially turning it into a success. If the check still fails, this use of Second Wind isn't expended.

Legionnaire Weapons (Lion Legionnaire)

Your specialized training allows you to do extraordinary things with Legionnaire weapons, which are weapons with the Reach and Heavy properties, as well as Quarterstaves, Spears, and Tridents.

For you, Legionnaire weapons count as having the Finesse property, and you can ignore any Strength requirements from the Heavy property.

While wielding a Legionnaire weapon, you can use your Dexterity instead of your Strength to determine your jumping distance or to make Athletics checks as part of a High or Long Jump.

You can use a Legionnaire weapon as a vaulting pole, giving yourself Advantage on any Athletics check you make as part of a High or Long Jump.

SPECIES TRAITS

Medium Size (Human)

5 by 5 ft

Skillful (Human)

You gain proficiency in one skill of your choice.

Resourceful (Human)

OTHER FEATURES

Protection (Feat)

Fighting Style Feat (Prerequisite: Fighting Style Feature)

When a creature you can see attacks a target other than you that is within 5 feet of you, you can take a Reaction to interpose your Shield if you're holding one. You impose Disadvantage on the triggering attack roll and all other attack rolls against the target until the start of your next turn if you remain within 5 feet of the target.

Savage Attacker (Feat)

Origin Feat

You've trained to deal particularly damaging strikes. Once per turn when you hit a target with a weapon, you can roll the weapon's damage dice twice and use either roll against the target.

Tough (Feat)

Origin Feat

Your Hit Point maximum increases by an amount equal to twice your character level when you gain this feat. Whenever you gain a character level thereafter, your Hit Point maximum increases by an additional 2 Hit Points.
