CANTRIPS & SPELLS

LVL PR.	NAME	RANGE	V R	S C	M C	NOTES
0	Light Action	Touch	Ⓥ	Ⓢ	Ⓜ	You touch one Large or smaller object that isn't being worn or carried by someone else. Until the spell ends, the object sheds Bright Light in a 20-foot radius and Dim Light for an additional 20 feet. The light can be colored as you like. Covering the object with something opaque blocks the light. The spell ends if you cast it again.
0	Prestidigitation Action	10 feet	Ⓥ	Ⓢ	Ⓜ	You create a magical effect within range. Choose the effect from the options below. If you cast this spell multiple times, you can have up to three of its non-instantaneous effects active at a time. Sensory Effect. You create an instantaneous, harmless sensory effect, such as a shower of sparks, a puff of wind, faint musical notes, or an odd odor. Fire Play. You instantaneously light or snuff out a candle, a torch, or a small campfire. Clean or Soil. You instantaneously clean or soil an object no larger than 1 cubic foot. Minor Sensation. You chill, warm, or flavor up to 1 cubic foot of nonliving material for 1 hour. Magic Mark. You make a color, a small mark, or a symbol appear on an object or a surface for 1 hour. Minor Creation. You create a nonmagical trinket or an illusory image that can fit in your hand. It lasts until the end of your next turn. A trinket can deal no damage and has no monetary worth.
0	Fire Bolt Action	120 feet	Ⓥ	Ⓢ	Ⓜ	You hurl a mote of fire at a creature or an object within range. Make a ranged spell attack against the target. On a hit, the target takes 1d10 Fire damage. A flammable object hit by this spell starts burning if it isn't being worn or carried.
0	Mage Hand Action	30 feet	Ⓥ	Ⓢ	Ⓜ	A spectral, floating hand appears at a point you choose within range. The hand lasts for the duration. The hand vanishes if it is ever more than 30 feet away from you or if you cast this spell again. When you cast the spell, you can use the hand to manipulate an object, open an unlocked door or container, stow or retrieve an item from an open container, or pour the contents out of a vial. As a Magic action on your later turns, you can control the hand thus again. As part of that action, you can move the hand up to 30 feet. The hand can't attack, activate magic items, or carry more than 10 pounds.
1 ◆	Feather Fall Reaction	60 feet	Ⓥ	Ⓢ	Ⓜ	Reaction, which you take when you or a creature you can see within 60 feet of you falls. Choose up to five falling creatures within range. A falling creature's rate of descent slows to 60 feet per round until the spell ends. If a creature lands before the spell ends, the creature takes no damage from the fall, and the spell ends for that creature.
1 ◆	Comprehend Languages Action or Ritual	Self	Ⓥ	Ⓢ	Ⓜ	For the duration, you understand the literal meaning of any language that you hear or see signed. You also understand any written language that you see, but you must be touching the surface on which the words are written. It takes about 1 minute to read one page of text. This spell doesn't decode symbols or secret messages.
1 ◆	Magic Missile Action	120 feet	Ⓥ	Ⓢ	Ⓜ	You create three glowing darts of magical force. Each dart strikes a creature of your choice that you can see within range. A dart deals 1d4 + 1 Force damage to its target. The darts all strike simultaneously, and you can direct them to hit one creature or several.
1 ◆	Burning Hands Action	Self	Ⓥ	Ⓢ	Ⓜ	A thin sheet of flames shoots forth from you. Each creature in a 15-foot Cone makes a Dexterity saving throw, taking 3d6 Fire damage on a failed save or half as much damage on a successful one. Flammable objects in the Cone that aren't being worn or carried start burning.
1 ◆	Shield Reaction	Self	Ⓥ	Ⓢ	Ⓜ	Reaction, which you take when you are hit by an attack roll or targeted by the Magic Missile spell. An imperceptible barrier of magical force protects you. Until the start of your next turn, you have a +5 bonus to AC, including against the triggering attack, and you take no damage from Magic Missile.
1 ◆	Witch Bolt Action	60 feet	Ⓥ	Ⓢ	Ⓜ	A beam of crackling energy lances toward a creature within range, forming a sustained arc of lightning between you and the target. Make a ranged spell attack against it. On a hit, the target takes 2d12 Lightning damage. On each of your subsequent turns, you can take a Bonus Action to deal 1d12 Lightning damage to the target automatically, even if the first attack missed. The spell ends if the target is ever outside the spell's range or if it has Total Cover from you.
1 ◆	Detect Magic Action or Ritual	Self	Ⓥ	Ⓢ	Ⓜ	For the duration, you sense the presence of magical effects within 30 feet of yourself. If you sense such effects, you can take the Magic action to see a faint aura around any visible creature or object in the area that bears the magic, and if an effect was created by a spell, you learn the spell's school of magic. The spell is blocked by 1 foot of stone, dirt, or wood; 1 inch of metal; or a thin sheet of lead.
1 ◆	Mage Armor Action	Touch	Ⓥ	Ⓢ	Ⓜ	You touch a willing creature who isn't wearing armor. Until the spell ends, the target's base AC becomes 13 plus its Dexterity modifier. The spell ends early if the target dons armor.

BACKSTORY & PERSONALITY

SCRIBE

You spent formative years in a scriptorium, a monastery dedicated to the preservation of knowledge, or a government agency, where you learned to write with a clear hand and produce finely written texts. Perhaps you scribed government documents or copied tomes of literature. You might have some skill as a writer of poetry, narrative, or scholarly research. Above all, you have a careful attention to detail, helping you avoid introducing mistakes to the documents you copy and create.

CLASS FEATURES

Arcane Recovery (Wizard)

You can regain some of your magical energy by studying your spellbook. When you finish a Short Rest, you can choose expended spell slots to recover. The spell slots can have a combined level equal to no more than half your Wizard level (round up), and none of the slots can be level 6 or higher. For example, if you're a level 4 Wizard, you can recover up to two levels' worth of spell slots, regaining either one level 2 spell slot or two level 1 spell slots.

Once you use this feature, you can't do so again until you finish a Long Rest.

Arcane Recovery ◇

Astronomy Savant (Astronomer)

Cantrip. You know the Starry Wisp cantrip. The cantrip doesn't count against your number of cantrips known.

Additional Spells. Add the Wizard level 3 spells from the Astronomer Spell List to your spellbook for free. In addition, whenever you gain access to a new level of spell slots in this class, add the corresponding spell from the Astronomer Spell List to your spellbook for free. These spells count as Wizard spells for you. Alternatively, you can replace one or both of the listed spells with any conjuration spell from the Wizard spell list of the same spell level or lower.

Level 3: Guiding Bolt, Moon Beam

Battlefield Constellation (Astronomer)

Constellation. As an action, you can create a number of intangible, magical motes of starlight equal to 1 plus your Intelligence modifier (minimum 2). Each mote appears in an unoccupied space on the ground that you can see within 30 feet of you. Thin, intangible lines connect your motes of starlight. These motes last for 1 minute. You can create these motes a number of times equal to your Proficiency Bonus and regain all expended uses when you finish a Long Rest.

Studied Travel: As a Bonus Action on your turn, you can teleport to an unoccupied space you can see within 30 feet of you that contains one of your motes of starlight.

Battlefield Constellation ◇◇

Ritual Adept (Wizard)

You can cast any spell as a Ritual if that spell has the Ritual tag and the spell is in your spellbook. You needn't have the spell prepared, but you must read from the book to cast a spell in this way.

Scholar (Wizard)

While studying magic, you also specialized in another field of study. Choose one of the following skills in which you have proficiency: Arcana, History, Investigation, Medicine, Nature, or Religion. You have Expertise in the chosen skill.

	Spellcasting (Wizard) As a student of arcane magic, you have learned to cast spells. The information below details how you use those rules with Wizard spells, which appear in the Wizard spell list later in the class's description. Cantrips. You know three Wizard cantrips of your choice. Light, Mage Hand, and Ray of Frost are recommended. Whenever you finish a Long Rest, you can replace one of your cantrips from this feature with another Wizard cantrip of your choice. When you reach Wizard levels 4 and 10, you learn another Wizard cantrip of your choice, as shown in the Cantrips column of the Wizard Features table. Spellbook. Your wizardly apprenticeship culminated in the creation of a unique book: your spellbook. It is a Tiny object that weighs 3 pounds, contains 100 pages, and can be read only by you or someone casting Identify. You determine the book's appearance and materials, such as a gilt-edged tome or a collection of vellum bound with twine. The book contains the level 1+ spells you know. It starts with six level 1 Wizard spells of your choice. Detect Magic, Feather Fall, Mage Armor, Magic Missile, Sleep, and Thunderwave are recommended. Whenever you gain a Wizard level after 1, add two Wizard spells of your choice to your spellbook. Each of these spells must be of a level for which you have spell slots, as shown in the Wizard Features table. The spells are the culmination of arcane research you do regularly. Spell Slots. The Wizard Features table shows how many spell slots you have to cast your level 1+ spells. You regain all expended slots when you finish a Long Rest. Prepared Spells of Level 1+. You prepare the list of level 1+ spells that are available for you to cast with this feature. To do so, choose four spells from your spellbook. The chosen spells must be of a level for which you have spell slots. The number of spells on your list increases as you gain Wizard levels, as shown in the Prepared Spells column of the Wizard Features table. Whenever that number increases, choose additional Wizard spells until the number of spells on your list matches the number in the table. The chosen spells must be of a level for which you have spell slots. For example, if you're a level 3 Wizard, your list of prepared spells can include six spells of levels 1 and 2 in any combination, chosen from your spellbook. If another Wizard feature gives you spells that you always have prepared, those spells don't count against the number of spells you can prepare with this feature, but those spells otherwise count as Wizard spells for you. Changing Your Prepared Spells. Whenever you finish a Long Rest, you can change your list of prepared spells, replacing any of the spells there with spells from your spellbook. Spellcasting Ability. Intelligence is your spellcasting ability for your Wizard spells. Spellcasting Focus. You can use an Arcane Focus or your spellbook as a Spellcasting Focus for your Wizard spells.
